MEMORANDUM FOR: Deputy Director for Administration

SUBJECT : Response to Questions Posed by the  
Senate Investigating Staff

1. Following are the questions posed by the Senate Investigating Staff and our responses to those questions.

A. HOW MANY RETIRED MILITARY OFFICERS ARE CURRENTLY EMPLOYED BY THE CIA?

RESPONSE - One-hundred twelve (112) retired military officers are currently employed by the Agency.

B. WHAT HAS BEEN THE ANNUAL HISTORY SINCE 1960?

RESPONSE - Our ability to extract data from our record system dating back to 1960 in order to respond to this question is quite limited. However, through a combination of records in the Control Division, the Contract Personnel Division, and the Military Personnel Branch, we have the following information:

<u>On Duty</u>	<u>Number of Officers</u>
April 1963	12
December 1966	53
April 1967	55
October 1969	64
March 1971	69
December 1972	116
June 1974	85
July 1975	112

The figure for 1975 reflects both Staff and Contract employees. Figures for prior years reflect Staff employees only.

C. ARE THEY COVERED BY THE DUAL COMPENSATION PROVISION OF SECTION 5532(b) OF TITAL 5, UNITED STATES CODE?

Also, [redacted] [redacted] who resigned from the Agency effective 14 June 1974, was granted an exception to the Dual Compensation Provisions (CSC memorandum is attached).

1. DD/A Room 7-D-26 Headquarters					Comments (Number each comment to show from whom to whom. Draw a line across column after each comment.)
2.					Approximately 10,000 cards were screened to extract the required information. In about 1,000 cases we had to check the cards against files located at [redacted] in order to STATINTL obtain the information requested. Five man days were spent at [redacted] to perform this STATINTL task.
3.					The listing and figures are as complete as we can make them. We had to rely on several sources of information to complete the task. We checked with QAB, Services Staff, Administration Services / DDS&T, IC Staff and with officials in each Directorate.
4.					We must call to your attention that some of the names shown on the listing are very sensitive and involve what I understand are deep operational assignments.
